Lieutenant General Edward J. Heinz  
Director, Intelligence Community Staff

Dear General Heinz

Attached is the 1988 issue of HQ AFSAC's "Air Force Human Resources Intelligence Highlights (U)" (HQ AFSACP 200-27). The highlights, HQ AFSACP 200-29, and my briefing at the SIO conference, are three separate, but parallel approaches we are taking to sensitize Air Force leadership to what HUMINT can do and has done for them. Our goal is to provide otherwise unobtainable intelligence to theater aircrews and to help assure more successful force employment, as well as to provide the very best data available to planners and decision makers at all levels.

As you have seen, the investments made in our organization five years ago are beginning to yield the long-term returns anticipated. The quality of this year's reporting shows a year of unparalleled success. This upward trend should continue with our modest, incremental manpower increases as we continue to expand our operations and achieve full operational maturity.

As always, I earnestly solicit your comments regarding the publication, and your criticisms and questions regarding our operations and the potential they offer your operational commanders. Let me know how I can support your mission better. Our ultimate goal remains support to the combat force first and foremost. I appreciate your continued support and commitment to the nurturing of the HUMINT discipline.

Sincerely

*W/R Doxey*

JOHN W. DOXEY, Colonel, USAF  
Commander
